

AGP

Izak Christensen
Agricultural Business
Junior
Merchandising Intern

I am currently serving as the Senior CALS Council Representative for the ISU Agricultural Business Club. During the summer of 2015 I had the opportunity to work as a merchandising intern for Ag Processing, Inc. I was based in Eagle Grove, Iowa, but was fortunate enough to travel throughout the summer to other AGP soybean processing facilities as well. The merchandising internship allowed me to learn about the commodity markets, logistics, and various other aspects of soybean processing. AGP does a great job of including interns in the tasks at hand, so I felt more like another employee rather than an intern. I thoroughly enjoyed working at AGP as a merchandising intern, and would highly recommend

any internships or employment opportunities available for this great company!
